NOTE FOR: Deputy Director of Central Intelligence

FROM: John Bross

John,

1. Codevilla's article is of some personal concern to me as the report of this Advisory Commission of mine is unlikely to have much impact on the Senate as long as Codevilla is there.

2. I count amongst my blessings the fact that I have no responsibility for relations between CIA and the Congress. Obviously, I will do as much or as little as you think desirable. There is one thing that I am planning to do and that is give a copy of the article to Dick Helms with the thought that he might talk to Goldwater about it. Goldwater thinks very highly of Dick.
